

THREE MORE ARRESTS AS RESULT FAIR PLAY RIOT

GUS JONES, WILL KAY AND
JOHN McDONALD ARE
IN OCONEE JAIL

NEGRO WITNESS

Named Alonzo Anderson Was Al-
so Placed in Jail—Other De-
fendants Tried Soon

Another episode in the race rioting last December at Fair Play, when three negroes were killed and several severely beaten and otherwise injured, was recorded yesterday morning, when Sheriff John Davis of Oconee County, placed three white men of that section under arrest and carried them to jail at Walhalla, making six men who now face charges of murder as a result of this trouble.

The men placed under arrest yesterday are Gus Jones, Will Kay and John McDonald. It is understood that they have waived the right of preliminary hearing and will immediately make efforts to procure their liberty on bail. The men were unable to get bail last night and spent the night in Oconee County jail, it is understood.

Material Witness.
At the same time Sheriff Davis arrested these three men he took into custody a negro man named Alonzo Anderson, who is wanted as a material witness in the cases which have been brought against these men. The negro was placed in jail at Walhalla, where he will be held until the convening of court next Monday, when these men will be placed on trial.

First Arrests.
Several days after the riot at Fair Play Sheriff Davis placed three men under arrest, these being William C. McClure, Calvin C. Kay and Woodrow Campbell. These men were presented by a coroner's jury for murder, it being alleged that they caused the death of a negro named Green Gibson, on December 20.

On January 11 the men were given a preliminary hearing before a magistrate at Walhalla, and remanded to jail. A few days after that they were admitted to bail in the sum of \$5,000 each.

McDonald Wounded.
It will be recalled that John McDonald was wounded in the eye during the riot. He made several trips to Anderson to receive treatment at the hands of a specialist.

The name of Will Kay was also mentioned in connection with the trouble, but why he and McDonald were not taken into custody at the time the other men were arrested is not known.

Trial Next Week.
McClure, Calvin Kay and Campbell will probably be placed on trial at the term of court of general sessions which convenes at Walhalla next Monday.

They are the Ferrona, out from Baltimore; the St. Kentigern from Newport News; and the St. Helena from Charleston, S. C. The St. Helena carries a general cargo of 7,000 tons given in part by the States of North and South Carolina and Georgia.

LECTURE ON PANAMA

Repeated Last Night at Pythian Hall
by Stacy Russell.

The illustrated lecture on Panama which Stacy Russell gave several days ago at the Pythian hall before members of the order was repeated last night in order that the general public might have the privilege of enjoying it.

Mr. Russell, who is an old Anderson boy, the son of Mr. and Mrs. W. Russell, has spent some seven years in Panama and knows his subject thoroughly. His lecture is richly illustrated and the most interesting that has ever been heard here on this subject.

Hopewell News

Rev. O. L. Martin filled his usual appointment Saturday a. m. and Sunday p. m. Preached two able sermons as he always does.

We were disappointed in the congregation for we thought there had been so many Sundays this winter that the people could not assemble together at the house of God, that the whole church would be there; but the congregation was small. I think we are tried in many ways to see if our faith is strong. God in his mysterious ways will keep us from going, but he will give us an opportunity to see if we will go, then if we fail to go, I believe many times he sends things on us so we can't go. I would like to hear someone else speak on that subject.

Mr. B. L. Mitchell and wife worshipped with us Sunday. It looked good to see them again. He has been our leader in music for many years, but has moved to Anderson, and we miss him and his family very much. We appreciated him very much indeed. He has done a good work at Hopewell and has been very faithful, and we hope he will take up work in his new home and work as faithful as he did for us. Christ says, "He that is faithful in a few things I will make these ruler over many."

Mr. J. A. White, who has been sick many weeks with side pleurisy, is improving very slowly, is able to sit on the porch in the sunshine in good weather. We miss him at church very much indeed. His place was never vacant only when sickness of the family kept him away. He has been a faithful deacon and Sunday school teacher for many years, and when we are used to seeing one present all the time, even if they take no active part, their absence makes a great vacancy, but such men as Mr. White, their places can't be filled. If we had more such men the world would be much better. I never heard Mr. White pray without asking God's blessing on the sick. He was always thoughtful of them and prayed for them.

Mrs. Stringer has also been sick for several weeks or months rather, but is some better. We hope she will get able to worship with us again, even if she is in the eighties. She is a faithful mother of Israel. A sweeter Christian character we have never known, even after she has suffered these many weeks, not a murmur did we hear from her lips about it, but her face shone with angelic brightness. It is sweet to see that in affliction.

Mr. Jno. Thompson, who has been sick so long and was operated on in Augusta, for gastric ulcer, has never regained himself from the operation yet. The operation relieved the indigestion. He can eat as he has not been able to do in many years, but don't improve much.

Mr. and Mrs. Jno. McDaniel has a new corner at their home in the shape of a boy. We always have, and always will need boys, for what would home, school, Sunday school, play, fun, frolic, switches, strings, rocks, slings, dogs, calves and everything do without boys. Our future depends on the boys. We want more boys and better boys of course, girls too.

Mr. S. C. Fowler has moved in his new house, though not quite completed. He has a nice seven room cottage.

We have a new R. F. D. carrier on route 1 now, Mr. Gilliard. Mr. Coker, our former carrier has some incurable trouble of the blood vessels of the throat and resigned. We hope our new man will like his people, and we hope to like him, but it's a hard place to fill to please everyone. We ought to be more thoughtful, kind and grateful to these men who have the same thing to do the year round. A kind word, a bag of fruit, a melon, etc., will help their days to be shorter and brighter in their routes. Our sympathy goes out to Mr. Coker and hope his days will be long and happy yet, even though he can't take solid nourishment, he can live many years on liquid.

Miss Lila Carter, who has attended Limestone one session, and until Christmas has decided to stay at home and give her time to piano. She has purchased her new piano and will begin taking at once. We are glad so many more are waking up to the fact that music can be made as well as born. Fifty years ago most people thought if a child didn't have a talent for music, it was useless to try to teach them music. People have changed their minds now, for children have learned to play well; also sing well by training, and I think it is the duty of all parents to do their duty as far as they are able to give each child a musical education. Many times we find a hidden talent that develops when it had not been educated in music they would have never known they had any music in them. What is there that is more charming than music? Did you ever see a human so busy, so dejected, so listless, that they wouldn't stop to listen to sweet music? I never did.

The Legislature is trying to make new laws concerning compulsory education, and have failed so far, but I wish they would make a law compelling every school to have a musical instrument, half as many singing books as they have pupils, and compel every child to sing every morning just as they would be to say a lesson. In this way they would carry singing into every home. Parents would catch the enthusiasm. They'll carry it to Sunday school and church, and the good singing there will attract a good congregation to hear the gospel preached, and so telling where it would do more good than a law. Hopewell school had a day last Friday. They started Washington's

birthday. Opened by school singing, "America." The literary society had arranged the program, which was well rendered to be so new. The society had met just once before. Several recitations by small children, jokes by Ham Webb, current events by Leroy Fowler, declamation by Chess Martin, instrumental solo by Gladys Mahoffey, declamation by Gordon Wilson. "Red, White and Blue," sung by primary pupils and acted by three little boys and four little girls. They had their first debate, "Shall women have equal suffrage as men." Affirmative, Charley Watkins and Paul Kowalski; negative, Weston Bolt and Ralph Welborn. The judges decided in favor of the negative, but they did fine for the first. They faced it without a paper too. Although they forgot some of it was better without a paper.

We had several of the ladies and mothers present; also our superintendent, J. B. Felton. He made a splendid speech, encouraging them all, urging them to go onward and upward, and above all to come every day, "for that is where success lies." Few people know that they cripple their children for life when they allow them to miss a day in each week, but it does the majority of them that way. Of course some will succeed anyway, but not many. Let us help the teachers by sending them every day, rain or shine. All true parents want their children to be a success in the world, but they can't be without an education. They can't get an education without they go regularly. They can't learn without they study and obey the teacher; so let's see that they do all.

THIEVES EXECUTED VERY CLEVER TRICK

ONE ROBBED PLACE WHILE
THE OTHER CALLED PRO-
PRIETOR TO PHONE

JUNK MAN VICTIM

Summoned to Distant Telephone
and Returned to Find Office
Rifled

Whereas thieves operating in the city recently have been bold, they have now resorted to strategy; and a splendid illustration of their expertness in this latter quality was furnished yesterday about noon when Sam Dishner, who operates a junk shop on North Main street, was relieved of a quantity of brass, copper, etc., which he claims was worth \$35.

The method the thief or thieves—for the job was undoubtedly the work of at least two persons—employed is one of the shrewdest that has been used about here in quite a while, the police assert. And yet the plan is so simple, they say, that almost anyone would fall for it.

Going back to the beginning, Sam Dishner notified the police about noon yesterday that his place of business had been entered while he was out of the office and a considerable quantity of brass, copper and other junk stolen. Officers responded to the call and made an inspection of Dishner's place, which is the old Stacy Cochran livery stable, just across Manning street from the oil mill.

Dishner told the police that a negro from the oil mill came down to his place and told him that someone wished to speak to him over the telephone. Dishner went to answer the telephone call and left his place of business open. While he was gone someone entered the place and made away with a considerable quantity of stuff, which Dishner declares was worth \$35.

The police believe that the telephone call was a fake, for when Dishner got to the phone the party who called him had gone. The officers are of the opinion that the person who called Dishner over the telephone cooperated with a partner, the latter entering the junk shop just at the time Dishner was called out to answer the telephone.

As yet no arrests have been made in the case. The officers believe that they know the guilty party or parties, and state that they will have someone under arrest shortly.

GERMANS CAPTURE MORE THAN 100,000 Upwards of 150 Cannon and Quantities of Other Material Also Taken.

BERLIN, Feb. 22.—(via London, 3:30 p. m.).—The German official statement issued today announces that the captures in the battle of the Muzurian Lakes district of East Prussian have been increased to seven generals and more than 100,000 men. The pieces of cannon taken numbered 150.

The text of the statement reads: "In the western theatre: Another hostile trench was taken by us yesterday to the east of Ypres (in Belgium.) The enemy's counter attacks on the captured positions remained unsuccessful."

"In the Champagne district there was comparative quiet yesterday. The number of prisoners taken by us during the last battles in this region has been increased to 15 officers and more than 1,000 men. The sanguinary losses of the enemy have been extraordinarily high."

"The enemy made an unsuccessful attack on our position to the east of Verdun during the night."

"In the Vosges the villages of Hochrad and Stosswelt were taken by us after a short engagement. Otherwise nothing of importance occurred."

"In the eastern theatre: The pursuit after the winter battle in the Muzurian district has come to an end. During the clearing up of operations to the northwest of Grodno and in the battles reported during the last few days in the Bobr and Navez districts, one commanding general and four other generals and approximately 40,000 men have been taken prisoners up to the present. Seventy-five cannon and some machine guns, the actual number of which has not yet been ascertained, and much other war material has been captured."

"The total booty taken in the winter battle in the Muzurian district as a result of these additions has been increased to date to seven generals, more than 100,000 men, upwards of 150 cannon and quantities of other material of all descriptions, the amount of which cannot yet be approximately estimated."

"Cannon of a heavy calibre and ammunition frequently are buried by the enemy or sunk in the lakes near Loetzen and in the Widmer Sea. Eight cannon of heavy calibre were dug up or pulled out of the water yesterday."

"The tenth Russian army, under General Baron Sivers, is considered as having been destroyed."

"New battles appear to be developing at Grodno and to the north of Seichowols. It is reported that the Russian army to the northwest of Oswowts and Lompa, as well as those at Przasnys, are taking their regular course."

"There is no news from Poland to the south of the Vistula River."

CLEMSON-FURMAN BASE BALL GAME SECURED

Will Be Staged Here on or About March 27 It Is Stated.

Arrangements have been perfected between the entertainment committee of the chamber of commerce, Gen. M. L. Bonham, chairman, and representatives of Clemson College and Furman University baseball teams for staging the annual baseball game between these college teams in Anderson. It is probable that the game will be played on March 27.

Members of the committee were not able to say whether the game would be played at North Anderson or at Buena Vista park, but this is a matter which can be settled later. It is very likely that special rates will be secured over all steam roads and the interurban road entering Anderson, and that the entire cost of the game will be brought here for the game.

That arrangements have been made for staging a game between the base ball teams of these two well known and favorite institutions in Anderson will be of great interest generally, and especially to alumni, former students and friends of the institutions.

TO RIGIDLY ENFORCE THE VAGRANCY LAWS

Council Believes This The Cause of
Most Lawlessness.

Believing that vagrancy is a root of lawlessness and that a strict enforcement of the ordinance against this evil will have some weight in preventing a continuance of the wave of crime which has gotten under way in Anderson during the past few days, city council, at the special session held Tuesday morning for the purpose of authorizing a reward for the apprehension of the slayer of Thomas M. Dodd, adopted a resolution instructing Chief of Police Sammons and other members of the department to rigidly enforce the laws against vagrancy.

To offset excuses that might be offered by anyone to the effect that he could not get employment, council created practically an unlimited number of jobs, authorizing the city engineer to commence at once with the laying of 1,000 feet of additional sewer main on South Main street.

The new sewer line is to begin at Norris street and extend to the city limits. It is necessary for the sewer to be laid before any street paving can be done anyway, so council thought it wise to have the work begun now. By laying this sewer line now employment will be afforded for some 50 laborers. The work is to be done by day labor, under the supervision of Street Overseer Gilmer and at the direction of City Engineer Sanders.

Excavation for the sewer main will begin as soon as the city engineer can make necessary surveys. The city will pay the laborers the usual wages, not to exceed 85 cents per day. Persons doing work may apply to Street Overseer Gilmer.

The laying of this sewer line will cost something like \$450 or \$500, and will afford sewer connections for many residences on South Main street.

2 MOUNTED POLICE TO PATROL CITY AT NIGHT

Determined to suppress lawlessness in the city so far as lies within their power, city council, in special session yesterday morning for the purpose of authorizing the offering of a reward for the slayer of Thomas M. Dodd, instructed Chief of Police Sammons to place two of his men on horseback and have them patrol the city from dusk to daylight, beginning last night.

The horse used by the chief and the one used by the street overseer will be used for the night patrol duty. Private Driskell, who has been serving as call man for some time, will be detailed for regular patrol duty. The second patrol man will be selected from night to night from the remaining members of the police force.

Council also authorized Chief Sammons to employ an extra policeman, to be placed on duty at 6 o'clock Saturday afternoon and remain on duty until 1 o'clock Sunday morning, every week. This extra man will be detailed for duty in Ward 6. The order will be in force until revoked by council.

The aldermen believe that by mounting two of the policemen and having them patrol the city at night on horseback will have some effect in reducing lawlessness, a wave of which has been going on in the city for the past few days.

AND ANDERSON

BUSINESS FINE

January Past Showed Increase

Due to a marked improvement in business conditions generally all over the country and to afford Anderson additional freight facilities, the Piedmont & Northern Railway has put on an extra freight train in and out of the city.

The new freight train operates between Anderson and Greenville, making a round trip daily. With the freight train already operating between Anderson and Greenville, this affords this city a double daily freight service in and out of Anderson.

As generally known, the freight which operates between here and Greenwood is known as Nos. 60 and 61, the former number applying to the outgoing train and the latter number to the incoming train. No. 60 arrives here at 10:30 o'clock in the morning and leaves about noon.

The new freight train, which is operated as an extra, has no number. It arrives here about 5 o
